PETITION TO WITHDRAW HOLDING OF ABANDONMENT PURSUANT TO
37 CFR 1.181

Hon. Commissioner of Patents

Washington, D.C. 20231

RECEIVED
AUG 31 2004
GROUP 3600

Sir:

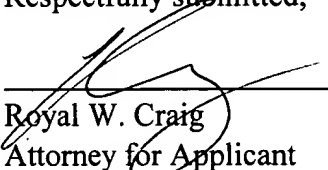

This Petition to Withdraw Holding of Abandonment Pursuant to 37 CFR 1.181 is submitted together with the requisite statement by applicant about the facts involved and the point or points to be reviewed. The facts are straightforward.

Applicant received a Notice of Abandonment dated 11 August 2004, in which abandonment was predicated on Applicant's failure to timely reply to the Official Action dated 18 November 2003. However, Applicant had timely replied to said Official Action, and a copy of Applicant's Reply with timely date-stamped post card is attached to the Statement by Applicant. Though timely filed, it appears that the Reply was diverted and

simply failed to make it into the file.

In view of the above Petition and attached Declaration of Royal W. Craig, prosecuting attorney, it is submitted that abandonment of this application was in error and that a favorable decision on this petition is in order. Accordingly, it is respectfully requested that the Petition to Withdraw Holding of Abandonment be withdrawn and Applicant's Reply be considered.

DECLARATION UNDER 37 CFR SECTION 2.20

To The Honorable Commissioner
of Patents and Trademarks
Washington, D.C. 20231

Sir:

I, Royal W. Craig, being duly sworn, states that I am presently attorney of record for the Applicants and owner of the above-identified application, as shown by the records in the United States Patent and Trademark Office. I further declare and state the following.

1. Applicant received a Notice of Abandonment dated 11 August 2004, in which abandonment was predicated on Applicant's failure to timely reply to the Official Action

dated 18 November 2003. However, Applicant had timely replied to said Official Action.

2. Applicant had timely filed a Response to the Official Action on 19 April 2004, together with a Request for Two-month Extension of Time and fee (extending the response date to April 18, 2004, and effectively to April 19, 2004 as the foregoing was a Sunday.

3. , A complete copy of Applicant 's Response is attached hereto which includes the return Post Card timely date-stamped by the Patent and Trademark Office. Though timely filed, it appears that the Reply was simply diverted and failed to make it into the file.

AMENDMENT

To The Honorable Commissioner
of Patents and Trademarks
Washington, D.C. 20231

Sir:

Responsive to the Official Action dated 18 November 2003, the time to respond which is herein extended by two (2) months to April 18, 2004, please enter the following Amendment.

REMARKS

The present application was filed pursuant to 35 U.S.C. § 251 as a reissue application of U.S. Patent No. 5,842,629 filed on August 9, 1996 and granted on December 1, 1998. The present amendment is in response to the Official Action dated 18 November 2003. Further consideration and allowance of this application are respectfully requested.

The Examiner again objected to the reissue oath/declaration filed with this application under 37 CFR 1.175(a)(1) and MPEP § 1414 on the ground that it failed to state that there was no deceptive intent and did not specifically identify at least one error which is relied upon to support the reissue application. Similarly, claims 1-4 and 16-17 were rejected as being based upon a defective declaration

under 35 U.S.C. 251. Applicant already submitted a corrective reissue oath/declaration along with its Amendment filed January 3, 2002 for the same purpose, and must therefore assume that the Examiner seeks more specificity in regard to the error which is relied upon to support the reissue application. Consequently, Applicant submits herewith another new reissue oath/declaration which specifically avers that there was no deceptive intent and more clearly identifies the particular error relied upon to support this reissue application.

The Examiner objected to the reissue application under 37 CFR 1.172(a) as lacking the written consent of all assignees owning an undivided interest in the patent, noting that the paper marked as "Statement under 37 CFR 3.73(b) is not a proper assent. Applicant submits herewith a Reissue Application Declaration by the Assignee which provides Sprague Licensing Corporation's (the Assignee's) assent to this reissue application.

The Examiner required new substitute drawings incorporating approved changes to FIGs. 1 and 2. New substitute FIGs. 1 and 2 are submitted herewith which show the non-confidential printed data and printed interior as previously submitted and approved by drawing change request.

The Examiner had indicated that a new copy of the reissue application is required under 37 CFR 1.173 in the form of a copy of the printed patent, in double column format, each page on only one side of a single sheet of paper. However, upon further discussion with the Examiner it was noted that the present application was filed effective December 10, 1999, prior to the effective date of amended 37 CFR 1.173. At the time of filing (and as specified at M.P.E.P. 1411), reissue applications filed prior to November 7, 2000 should be furnished in the form of cut-up soft copies of the original patent, with only a single column of the printed patent securely mounted on a separate sheet of paper. Inasmuch as this is how the original reissue application was provided it is not believed that a double-column copy is required, and again this was conformed in further discussions with the Examiner. If the Examiner concludes that something more is required in this regard he is invited to call the undersigned who will promptly supply the requested items.

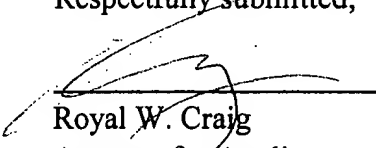

Applicant acknowledges the Examiner's indication that a Supplemental Reissue

Oath/Declaration is required under 37 CFR 1.175(b)(1) before this reissue application can be allowed, and a proper Supplemental Reissue Oath/Declaration with the indicated language has been executed by the inventors and is enclosed herewith.

* * * * *

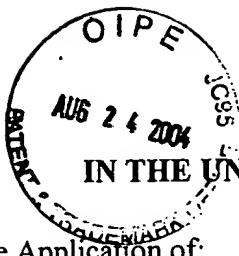

In view of the above amendments and remarks, it is believed that this reissue application is now in condition for allowance, and such a Notice is respectfully requested.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

1. The patentees claimed less than they had the right to claim in the patent. In particular, all issued claims of the '629 patent require "a line of perforations at...the...bottom of the package, the bottom line of perforations intersecting the die cut transparent cellophane window to provide a quick release feature that exposes a portion of the data card". The bottom perforation is a features only of one illustrated embodiment and constitutes an unnecessary limitations. New claims 17 and 18 have been added in this reissue application to eliminate the presence of perforations along the bottom of the card, broadening the claims to "a line of perforations at the top and along one side of the package."

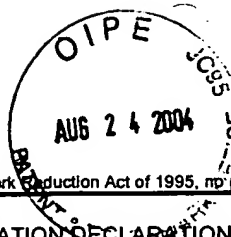

2. There are defects in the specification. In particular, there are various grammatical and punctuation errors in need of correction.
